

## School Farm Visits

With the help of volunteer farmers, DairyNZ's School Farm Visits provide children with a unique and memorable on-farm experience.

Classroom teachers who have been working with the DairyNZ Schools resources and teaching modules can apply to visit a local farm so that children can experience what they've learnt in the classroom in a real farm environment. [Watch as the children from Fairhaven Primary School, Te Puke, visit Richard and Amy Fowler's farm to learn all about dairying.](#) The school has been using DairyNZ's education resources in the classroom and a field trip to a local dairy farm proved to be a fantastic learning experience to complement and reinforce their classroom work.

Are you a teacher who has been using our resources and would like to take children on a School Farm Visit? Please [apply here](#).
